

Calcifert Lime[®]

GRANULATED CALCIUM LIME

Product Specification

EU legislation for liming material changed in May 2013 to include new declarations for total calcium content, neutralising value and fineness of all natural liming material.

Calcifert Lime meets or exceeds the specifications for premium quality liming material across all criteria.

	Minimum requirements (for premium quality limestone)	Calcifert Granulated Lime
Total Calcium (Ca)		36%
Neutralising value	50	54
Fineness	at least 97% to pass through a 2mm sieve	99%
	at least 80% to pass through a 1mm sieve	99%
	at least 50% to pass through a 0.315mm sieve	80%
	at least 30% to pass through a 0.1mm sieve	67%
<i>Optional declarations</i>		
Total Magnesium (Mg)		< 0.5%
Reactivity		100%
Moisture		< 0.5%
Soil incubation results		TBC
